

 Virtugal

# Products Catalogue

Virtugal, Lda. a company established in Trofa, started its operations in January 2012, mainly engaged in the marketing of medical devices and medicines for human use. However, as a result of its dynamic stance towards the growing needs and requests of the market, Virtugal presents itself as a company specialized in providing solutions in a variety of fields, with a very wide range of products, solutions and a quality standard acknowledged by its major customers.

Taking into account the steady and structured growth of Virtugal, new facilities were built in 2021, with a storage area 4 times larger than the previous one.

Virtugal is a dynamic, young and entrepreneurial company, committed to contributing to the growth of the Portuguese economy. It considers each customer and each product as a possibility to integrate and enhance the well-being and health for its users and to bring about success for the involved parties, as can be seen by its several sales partners.

Following a differentiation strategy, Virtugal created its own brand, VIRTUGAL, which provides greater visibility to the company and is in constant expansion.

Beyond the National market, the growing need to respond to developing international markets with strong needs in health area, allowed Virtugal to strengthen its focus on internationalization and exports, enabling its sustained growth and expansion of VIRTUGAL brand.

CATALOGUE

# Technical Materials

## Wound Dressings

Self-adhesive surgical dressings with absorbents for protecting injuries or wounds, and post-surgical procedures.

### WATERPROOF SURGICAL DRESSING

Sterile | Single Use

- 5cm x 7,5cm
- 9cm x 10cm
- 9cm x 15cm
- 10cm x 20cm
- 10cm x 25cm
- 10cm x 30cm

### NON-WOVEN SURGICAL DRESSING

Sterile | Single Use

- 7cm x 5cm
- 8cm x 10cm
- 10cm x 15cm
- 10cm x 20cm
- 10cm x 25cm
- 10cm x 30cm

### CATHETER PAD

Sterile | Single Use  
Various types and sizes.

### BAND-AIDS

Sterile | Single use  
Individually packed.

- 19mm x 72mm

### ADHESIVE PAD

Sterile | Single Use  
Used for eye occlusion or to protect surgical incisions or eye wounds. Individually packed.

- 5,8cm x 8,3cm
- 6,5cm x 9,5cm
- 5cm x 7,5cm

## Adhesives

Adhesives for attaching compression bandages, dressings, cannulas, etc. to the skin.

### NON-WOVEN ADHESIVE ROLL

Non-Sterile

- 5cm x 10m
- 10cm x 10m
- 15cm x 10m
- 20cm x 10m

### PLASTIC ADHESIVE

Non-Sterile

- 1,25cm x 9,14m
- 2,5cm x 9,14m
- 5cm x 9,14m
- 7,5cm x 9,14m

### SILK TAPE

Non-Sterile

- 1,25cm x 9,14m
- 2,5cm x 9,14m
- 5cm x 9,14m

## Bandage

### PLASTER BANDAGE

Suitable for immobilizations that require quick setting.  
Provides optimal shaping and profitability.

5cm x 3m	7,5cm x 2,7m
7,5cm x 3m	10cm x 2,7m
10cm x 3m	15cm x 2,7m
20cm x 3m	20cm x 2,7m

### COHESIVE ELASTIC BANDAGE

Non-Sterile | Single Use

4cm x 4m
6cm x 4m
8cm x 4m
10cm x 4m
12cm x 4m

### ELASTIC CLIP BANDAGE

Non-Sterile

8cm x 5m
10cm x 5m
12cm x 5m
15cm x 5m

### ELASTIC COTTON AND POLYAMIDE BANDAGE

A low-compression, elastic bandage made of cotton and polyamide fabric, used for non-adhesive fixation, support, and protection.

5cm x 4m
10cm x 4m
15cm x 4m
20cm x 4m

### CAMBRIC BANDAGE

A bleached, cotton cloth bandage used for fixation, as a barrier, for protection, and for absorption of exudates.

5cm x 5m
7cm x 4m
10cm x 4m
15cm x 4m
10cm x 10m

### CLOTH BANDAGE

A bleached, cotton bandage used in surgery for support, as a barrier, for protection, and for absorption of exudates.

5cm x 5m
10cm x 5m
15cm x 5m
20cm x 5m
10cm x 10m

### GAUZE BANDAGE

Bleached cotton bandage, used for support, fixation and bandaging of body surfaces.

5cm x 5m
7cm x 5m
10cm x 5m
15cm x 5m
10cm x 10m

### CREPE BANDAGE

Medium or high compression, non-adhesive, cotton elastic bandage, used in orthopedics, plastic or general surgery, phlebology and traumatology.

5cm x 4m
10cm x 4m
15cm x 4m
20cm x 4m
10cm x 10m

Non-woven compression bandages, made of viscose and polyester, in sterile and non-sterile formats. Characterized by their softness and low abrasiveness. Latex and phthalate free. Intended for use in non-surgical procedures, to cover and protect wounds, abrasions and superficial lesions. Also used for absorption of superficial body fluids or open field surgery.

## Compression bandages

### STERILE NON-WOVEN FABRIC COMPRESSION BANDAGES

With contrast thread, 2 or 4 layers, packs of 5 compression bandages.

**20cm x 20cm (10cm x 10cm)**

**80cm x 45cm (40cm x 45cm)**

**80cm x 45cm (40cm x 45cm)**

No contrast thread, 2 or 4 layers, packs of 5 compression bandages

**10cm x 10cm (5cm x 5cm)**

**15cm x 15cm (7,5cm x 7,5cm)**

**20cm x 20cm (10cm x 10cm)**

**20cm x 40cm (10cm x 20cm)**

**30cm x 40cm (20cm x 15cm)**

**80cm x 40cm (40cm x 20cm)**

**80cm x 40cm (40cm x 45cm)**

### NON-WOVEN FABRIC COMPRESSION BANDAGES

No contrast thread, 4 layers, packs of 5 compression bandages, in a dispenser box.

**10cm x 10cm (5cm x 5cm)**

**15cm x 15cm (7,5cm x 7,5cm)**

**20cm x 20cm (10cm x 10cm)**

Non-Sterile | No contrast thread, 4 layers, packs of 100 or 200 compression bandages.

**10cm x 10cm (5cm x 5cm)**

**15cm x 15cm (7,5cm x 7,5cm)**

**20cm x 20cm (10cm x 10cm)**

**20cm x 40cm (10cm x 20cm)**

**30cm x 40cm (20cm x 15cm)**

**80cm x 40cm (40cm x 20cm)**

Hydrophilic cotton gauze cloth compression bandages, in sterile and non-sterile formats. Latex and phthalate free.

Intended for use in surgical and non-surgical procedures, to control the micro-environment of a wound, which may be slight or deep. Also used to protect abrasions and injuries, to absorb superficial body fluids or in open field surgery, and to perform daily healing procedures in the clinical field.

## Gauze Swabs

### NON-STERILE GAUZE COMPRESSION BANDAGES

With contrast thread, 4 or 8 layers. Packs of 50 or 100 compression bandages.

**20cm x 40cm (10cm x 20cm)**

**60cm x 40cm (20cm x 15cm)**

**80cm x 80cm (40cm x 20cm)**

**1,80cm x 0,48cm (45cm x 45cm)**

No contrast thread, 4 or 8 layers, packs of 50 or 100 compression bandages.

**20cm x 15cm (5cm x 5cm)**

**30cm x 15cm (7,5cm x 7,5cm)**

**20cm x 20cm (10cm x 10cm)**

**50cm x 40cm (10cm x 20cm)**

**60cm x 40cm (20cm x 15cm)**

**80cm x 40cm (30cm x 15cm)**

**80cm x 80cm (40cm x 20cm)**

**1,80cm x 0,48cm (45cm x 45cm)**

### STERILE GAUZE COMPRESSION BANDAGES

In a dispenser box, no contrast thread, 8 layers. Packs of 1 or 5 compression bandages.

**20cm x 15cm (5cm x 5cm)**

**30cm x 15cm (7,5cm x 7,5cm)**

**20cm x 20cm (10cm x 10cm)**

No contrast thread, 4 or 8 layers. Packs of 5 compression bandages.

**20cm x 15cm (5cm x 5cm)**

**30cm x 15cm (7,5cm x 7,5cm)**

**20cm x 20cm (10cm x 10cm)**

**50cm x 40cm (10cm x 20cm)**

**60cm x 40cm (20cm x 15cm)**

**80cm x 40cm (30cm x 15cm)**

**80cm x 80cm (40cm x 20cm)**

**1,80cm x 0,48cm (45cm x 45cm)**

With contrast thread, 4 or 8 layers. Packs of 5 compression bandages.

**20cm x 40cm (10cm x 10cm)**

**50cm x 40cm (10cm x 20cm)**

**60cm x 40cm (20cm x 15cm)**

**80cm x 40cm (30cm x 15cm)**

**80cm x 80cm (40cm x 20cm)**

**1,80cm x 0,48cm (45cm x 45cm)**

## Syringes

Several sizes of syringes, 2 or 3 parts, with or without needles, sterile, luer slip and Luer Lock.

### WITH NEEDLE

Single use | Sterile | 3 parts

**2ml needle 23G x 1**

**5ml needle 21G x 1.5**

**10ml needle 21G x 1.5**

**20ml needle 21G x 1.5**

### NO NEEDLE | 2 PARTS

Single use | Sterile | 2 parts

**2ml**

**5ml**

**10ml**

**20ml**

### NO NEEDLE | 3 PARTS

Single use | Sterile | 3 parts

**2ml**

**5ml**

**10ml**

**20ml**

**50ml**

**60ml**

**100ml**

## Needles

### LUER NEEDLE

Luer needles, stainless steel, sterile, in various sizes and diameters.

**18G x 1.5**

**19G x 1.5**

**20G x 1.5**

**21G x 5/8**

**21G x 1.1**

**21G x 1.5**

**22G x 1.25**

**23G x 1**

**23G x 1.25**

**24G x 1**

**25G x 1**

**25G x 5/8**

**26G x 0.5**

**27G x 3/4**

## TECHNICAL MATERIALS

### I.V. CATHETER

Single Use | Sterile

Specially designed handles for easy and secure fixation, single use, sterile with option for suture holes.

<b>14G</b>	<b>20G</b>
<b>16G</b>	<b>22G</b>
<b>18G</b>	<b>24G</b>

### 3-WAY STOP COCK

3-way stop cock lipid resistant, for single use of intravenous infusion.

### INFUSION SET

Single Use | Sterile

Infusion Set with aerator and filter.

### BLOOD TRANSFUSION SYSTEM

Single Use | Sterile  
Gravity blood delivery system.

• Tube length - 150 cm

### HERNIA MESH

Sterile repair mesh, which will hold the hernia in place, after which the site of the skin where it was inserted will be sutured.  
Several models and sizes.

<b>POLYMESH DUAL</b>
<b>POLYMESH INOVA</b>
<b>POLYMESH PLUG E PATCH</b>
<b>POLYMESH COMPOSITE</b>
<b>POLYMESH POLYPROPYLENE</b>
<b>POLYMESH 3D</b>

### SUTURES PREMISUT

Sterile surgical sutures used to close minor surgical incisions. Absorbable or non-absorbable, mono or multifilament, with or without needle.

<b>PGA</b>
<b>PGAR</b>
<b>PGLA</b>
<b>PGLAR</b>
<b>PGCL</b>
<b>POLYESTER</b>
<b>NYLON</b>
<b>SILK</b>
<b>POLYPROPYLENE</b>
<b>POLYDIOXANONE</b>
<b>STEEL</b>

## Scalpel

Disposable scalpel blades with handle. Disposable scalpel blades, scalpel handles, used in minor surgery procedures on soft tissue.

### SCALPEL HANDLE

Single Use | Sterile  
Stainless steel.

Sizes

3	4
---	---

### SCALPEL WITH HANDLE

Single Use | Sterile  
Plastic handle with stainless steel blades.

Sizes

10	20
11	21
12	22
15	23
18	24

### SCALPEL WITHOUT HANDLE

Single Use | Sterile  
Carbon stainless steel.

Sizes

10	20
11	21
12	22
15	23
18	24

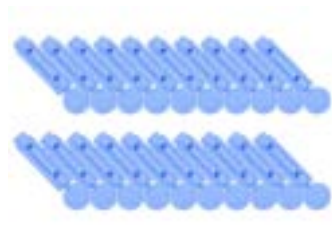

### OXYGEN CONCENTRATOR

Electronically operated 5L oxygen concentrator that delivers a high concentration of oxygen directly to the patient through a nasal cannula. Intended for individual use at home.

### BLOOD GLUCOSE TEST STRIPS

Blood glucose rapid test strips.  
To use with the blood glucose tester.

### LANCETS

Single Use | Sterile  
Sterile lancets for capillary puncture.  
To use in the finger prick pen when measuring blood glucose.

### LANCING PEN

Pen for inserting the lancets for capillary puncture.

### FINGERTIP PULSE OXIMETER

Finger oximeter for non-invasive and accurate measurement of blood oxygen saturation and heart rate.

### TABLET SPLITTER

Tablet splitter that allows for cutting the tablet exactly in half, making it easier to swallow or to only take half the dose. Safe and easy to use.

**WEEKLY MEDICATION ORGANIZER**

Medicine organizer, with removable transparent compartments, one for each day of the week. For each day there are 4 divisions: morning, afternoon, dinner and evening.

**DENTAL BOX**

Plastic box for storing oral devices and prosthetics.

**WOODEN TONGUE DEPRESSORS**

Non-Sterile  
 Thickness:  $1.60 \pm 0.20$  mm;  
 Length:  $150 \pm 2$  mm;  
 Width:  $18 \pm 1$  mm;

**Endotracheal tube**

Endotracheal tube for ventilation and routine surgical procedures. Standard nasal or oral use. Transparent, with opaque Radio line along the length of the tube for X-ray viewing. With and without cuff.

**ENDOTRACHEAL TUBE WITH CUFF**

**ENDOTRACHEAL TUBE WITHOUT CUFF**

**Foley Catheter**

**LATEX FOLEY CATHETER**

Sterile, single-use, flexible foley catheter made of silicone coated latex. 2 or 3 ways.

Sizes | 2 Ways

10	20
11	21
12	22
15	23
18	24

Sizes | 3 Ways

16	22
18	24
20	26

**SILICONE FOLEY CATHETER**

100% silicone foley catheter, sterile, single use, flexible, 2 or 3 ways. Length: 40cm

Sizes | 2 Ways

10	20
11	21
12	22
15	23
18	24

Sizes | 3 Ways

16	22
18	24
20	26

**CENTRAL VENOUS CATHETER KIT**

Single Use | Sterile  
 Each CVC kit contains: Central venous catheter, introducer needle, introducer syringe, guidewire with advancement, dilator, injection cap, movable fixation wings.

- With 1, 2, 3, or 4 lumens. Various sizes available.

**CONNECTORS**

Single Use | Sterile

**I.V. CANNULA**

Single Use | Sterile

Cannula for intravenous access.

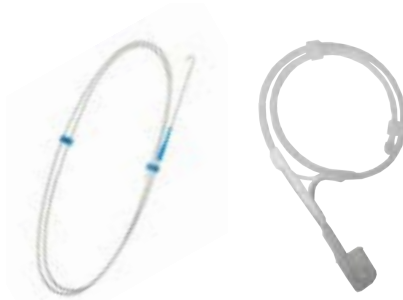

- With and without safety feature
- Various sizes available

**HEMODIALYSIS KIT**

Single Use | Sterile  
 Each hemodialysis kit contains: Hemodialysis catheter, introducer needle, introducer syringe, guidewire with advanced dilator, injection cap, medical dressing, and scalpel.

- Various sizes available.

**GUIDEWIRE**

Single Use | Sterile

- Available in Steel, Nitinol, and PTFE
- Straight or J-shaped.
- With or without safety wire.
- With or without applicator
- Various sizes available

**INFUSION EXTENSIONS**

Single Use | Sterile

- Normal, pressure, or micro-flow type
- Various sizes available
- With or without T-connector
- With or without valve

**ULTRASOUND PROBE COVER**

Ultrasound Probe Cover.  
 Latex - Sterile | Single Use  
 Latex - Non Sterile | Single Use

**STERILIZATION ROLL**

Flat roll.  
 Gusseted roll.

- Various sizes available.

**TECHNICAL MATERIALS**

**LATEX URINARY DEVICE**

Single Use | Sterile

Male external catheter, powdered, disposable, with adhesive fixing strip.

Size S	20 mm
Size M	25 mm
Size L	30 mm
Size XL	35 mm
Size XXL	40 mm

**SILICONE URINARY DEVICE**

Single Use | Sterile

Male external catheter, in silicone, non-sterile, disposable, self-adherent.

Size M	28 mm
Size L	31 mm
Size XL	35 mm

**VAGINAL SPECULUM**

Lateral Screw. Reinforced, anatomical, plastic vaginal speculum. Individually packed.

**MEN'S URINAL**

- Plastic urinal for men
- Disposable cellulose urinal for men.

**CONDOMS (Individual packaging)**

Lubricated and resistant latex condoms with reservoir. Various types.

**SALINE SOLUTION (Single doses sterile)**

Sterile saline solution in single doses for nasal and ocular washing.

**(NaCl 0,9%) 5 ml x 30 units**

## Urine bags

### PEDIATRIC

Single Use | Sterile  
Sterile bag, in polyethylene, with measurements. It comes with an anti-allergic adhesive. Individual packaging, sterile bag.

### 2L BAGS WITH NON-RETURN VALVE AND CROSS-SHAPED OUTLET

Sterile or non-sterile.  
With a measuring scale of 100 ml to 2000 ml. Universal catheter connection. Valve to prevent return of fluids and gases. The lower part contains a cross-shaped outlet with a safety cap.  
• PVC bag and valve  
• Tube length: 90cm  
• Tube diameter: 0.65cm

### STANDARD 2L BAGS

Non-sterile, 2000ml urine collection bag, made of translucent PVC with graduated measuring scale. Translucent tube hermetically sealed in the pouch and equipped with a tapered connector at the end adaptable to the patient's drain.  
• Tube length: 90cm  
• PVC bag and valve

### 1.5L BAGS WITH NON-RETURN VALVE

Non-sterile, 1500ml urine collection bag, made of translucent PVC with graduated measuring scale, with a non-return valve.  
Tube length: 90cm

### STANDARD 1.5L BAGS

Non-sterile, 1500ml urine collection bag, made of translucent PVC with graduated measuring scale. Translucent tube hermetically sealed in the pouch and equipped with a tapered connector at the end adaptable to the patient's drain.  
Tube length: 90cm

### 2L BAGS WITH NON-RETURN VALVE

Single Use | Non Sterile  
Incorporates a double plate at the top, acting as a valve to prevent the return of fluids and gases. Translucent tube hermetically sealed in the pouch and equipped with a tapered connector at the end adaptable to the patient's drain.  
2000ml urine collection bag, made of translucent PVC with a measuring scale of 100 ml to 2000 ml.  
Tube length: 90cm

### LEG BAGS 750ML

Sterile PVC leg urine collection bag. With non-return valve and lower outlet valve, universal fitting for catheter connection. 1 unit Sterile in individual bag. PVC connector and polythene cap.  
Thickness: 0.10mm at the front | 0.10mm at the back  
Bottom outlet: push-pull valve (PVC and PE)  
Tube length: 15cm  
Tube outside diameter: 6.5mm

### URINE BAG 2L WITH CLAMP

Urine bag 2L with clamp.

### URINE BAG 2L WITH CLAMP AND SAMPLING PORT

Urine bag 2L with clamp and sampling port.

**URINE CONTAINER (120ML)**

Plastic urine collection cup.

**FAECES CONTAINER (30ML)**

Plastic stool collection cup, with spatula.

**VOMIT BAGS**

Vomit bags, made of polyethylene, safe and easy to use in hospitals, cars, airplanes, or other situations of nausea.

- Polypropylene opening; polyethylene bag; White

Length: 390 ± 10 mm  
Opening diameter: 124 ± 4 mm

**VOMIT BAGS DISPENSER**

Vomit bags dispenser, wall-mounted.

**Body bags**

Bags for storing and transporting bodies.

**BODY BAGS**

Dimension: 220 X 80 cm

- 195 gm2
- PVC 65% + DOP 35%, white, with a zipper

**NON-WOVEN BODY BAGS**

Dimension: 220 X 80 cm

- 100 gm2
- Non-woven PP laminate, white, with a zipper

## Ultrasound Gel

Gel especially recommended for use as a contact medium for ultrasound transmission, in ultrasound machines, echographs and dopplers.

### HARD PACKAGING (5L)

Does not harm the probe; neutral pH. It makes the gel totally harmless to the patient's skin; It has no color, keeping the probe always clean and without bruises; Due to its consistency, it does not drip, facilitating the exam and saving gel; It doesn't have any unpleasant smells that usually impregnate the patient's skin; It is not greasy, which makes it easily absorbable by paper napkins, cotton or any other tissue, facilitating its removal after the exam.

### FLEXIBLE PACKAGING (5L)

Does not harm the probe; neutral pH. It makes the gel totally harmless to the patient's skin; It has no color, keeping the probe always clean and without bruises; Due to its consistency, it does not drip, facilitating the exam and saving gel; It doesn't have any unpleasant smells that usually impregnate the patient's skin; It is not greasy, which makes it easily absorbable by paper napkins, cotton or any other tissue, facilitating its removal after the exam.

### ZINC OXIDE FOAM

Zinc oxide foam for the prevention and recovery of irritated skin. Nourishing formula that creates a barrier that soothes, repairs and protects delicate, irritated skin.

### SPRAY ADHESIVE REMOVER

Spray adhesive remover, composed of silicone oil. It allows the delicate and painless removal of adhesives attached to the skin, preserving the integrity of even the most delicate of skins, while reducing inflammation.

### INSTANT COLD PACK

Single use | Non-sterile

Instant cold pack for simple and immediate external use.

## Spacers

Transparent, antistatic chamber with valve allows inhalation of medication and exhalation through the chamber in one direction only. Universal base, allowing the use of any type and brand of inhaler. Removable and washable chamber. Transparent 100% silicone masks.

### WITH SMALL MASK (0 - 18 MONTHS)

Anatomically shaped face mask for administering aerosol medication to infants.

### WITH MEDIUM MASK (1 - 5 YEARS)

A slightly larger mask for administering aerosol medication to children who refuse to inhale the calibrated dose inhalers.

### WITH LARGE MASK (5 YEARS +)

Suitable for patients who may struggle with a mouthpiece, or who prefer the security that a mask offers.

### NO MASK, WITH MOUTHPIECE (5 YEARS +)

The guidelines advise patients to transition to a product with a mouthpiece as soon as they are able to.
